

## Saloon Furniture Upgrade

After a few seasons we decided that having comfortable seating was more important to us than having a sofa bed and we decided to replace our MS sofa bed w/ a couple of recliners

We sold our sofa bed to a Mainship owner that was doing a refurbishment and wanted an original MS sofa bed.

The next chore was deciding what to replace it with... we decided on swivel / recliners that we had some experience with in a motorhome. We chose a [BenchMaster Ventura model from DiscountLeatherChairs.com](http://DiscountLeatherChairs.com).

Benchmater has several models available – we chose this one as it is a medium size – large enough for an average adult male but has a smaller foot print than many of the “over sized” recliners.

Service from the Discount Leather Chair online store was great – we dealt with Bob Wheelan Customer Service Mgr. Discount Leather Chairs, Inc. 1-877-638-0556 and he was very helpful.

Before

Seating to eat was limited to stools at the counter

After

The swivel adjustable ht table allows dinner seating by rotating the table top
